Professional Summary

- Software engineer with 3 years of experience in Salesforce Development (2 years) and Admin & support at Tata Consultancy Services. Currently at the end of notice period, available to join immediately.
- Proficient in configuration items like Lightning Components, Flow builder, Rules configuration.
- Skilled in developing robust custom solutions including Triggers, Apex classes, Batch classes, Queueable and Scheduled Apex to automate and optimize complex business workflows.

Work Experience

Tata Consultancy Services | Salesforce Developer – Aug 2022 to July 2024

Project: MedConnect CRM

Technology: Salesforce Lightning (LWC), Apex Classes, Triggers, Flow Builder, Aura Components, App Builder, Rule Configuration, Cases, Sales Cloud, Service Cloud.

Project Description: MedConnect CRM is a Salesforce-based custom healthcare CRM designed to manage the entire patient journey from lead generation to post-care support. The platform combines appointment scheduling, pharmacy management, invoicing, and customer service into a unified system. This application also features real-time billing synchronization and digital engagement through SMS and emails.

Responsibilities:

- Built dynamic lead capture forms, appointment booking pages with real-time doctor availability using Lightning App Builder and LWC for user friendly interface.
- Created record-triggered flows to auto-assign leads based on region, department, and urgency.
- Wrote Apex triggers to calculate lead scoring based on factors such as medical urgency, and insurance eligibility, to auto convert high priority leads into patients or cases.
- Developed Apex logic to automatically send email notifications for important updates and reminders.
- Used screen flows to guide front-desk staff through multi-step patient processes, including insurance verification, appointment slot selection and checking availability.
- Implemented flow-based case assignment and SLA tracking, ensuring that urgent patient issues were prioritized and escalated appropriately with automated reminders.
- Worked on Proof of Concepts related to Agentforce and Data cloud for reading and managing data.

Tata Consultancy Services | Administrator and Support – July 2024 to Aug 2025

Project: MedConnect CRM, Onelink ERP Systems.

Technology: Copado, Sandbox, Permission Set, WebLogic, Windows Server, Unix Server, Bash, PowerShell.

Project Description: Provided Administrative Support for the MedConnect application along with Onelink ERP application by maintaining servers and developing scripting languages. Onelink application is closely integrated with various 3rd party applications like Vertex, Kofax, Cognos for tax calculations and faxing.

Responsibilities:

- Maintained Salesforce sandboxes, performing regular refreshes to keep metadata aligned with production.
- Regularly performed Salesforce data masking, test record cleanup, and auditing users and their permissions to ensure data security and compliance.
- Monitored logs, cleared cache, and validated the application to maintain stability and performance.
- Created comprehensive documentation for SOPs and change deployment plans to ensure smooth implementation of changes and knowledge transition.
- Monitored application performance and health to minimize disruptions and ensure high availability.
- Developed PowerShell and Bash scripts to extract data from online dashboards and local server files to generating reports and streamlining daily operational tasks to reducing manual effort.

Skills Set

Languages:	HTML, CSS, JavaScript, Apex, SOQL, SOSL, Git, PowerShell, Bash.
Salesforce Technology:	Sales Cloud, Service Cloud, Data Cloud, Lightning Components.
Integrations / DevOps:	SFDX, Rest API, Agentforce, Agile, DevOps.
Data Management:	Data Loader, Workbench, Import Wizard.
Platform Automations:	Flow Builder, App Builder, Rules, Triggers, Batch.
Application Consoles:	SDFC, Salesforce AppExchange, Peoplesoft PIA.
Enterprise Tools:	ServiceNow, JIRA, GitHub, Confluence, Copado, Windows, Linux.
Microsoft 365 Products:	Proficient in Microsoft 365 applications and tools.
Non-Technical Skills:	Problem Solving, Time Management, Teamwork, Adaptability.

Achievements

Elevate Wings Program	Nov 2023
Assess an individual's understanding and capabilities in various digital technologies.	
Operational Security Excellence	July 2024
Maintained and secured the environment during a simulated CrowdStrike attack.	
BCP Enhancement Recognition	Dec 2024
Improved BCP through automation and reducing manual intervention.	

Personal Projects

My Portfolio Website

Developed a portfolio using HTML, CSS, and JavaScript along Apex and API Calls to showcase my technical skills and web-hosting projects. Projects mentioned below are linked to the portfolio for easy navigation.

BMI Calculator | Alarm Clock | Currency Converter | Weather Display App | Note Taking App

Academic Qualifications

Bachelor of Technology – Computer Science and Engineering	2018 - 2022
Sir C.R.Reddy College of Engineering	7.6 CGPA
Intermediate Education – MPC	2016 - 2018
Sri Chaitanya Junior College	93.7 %
Secondary Education – General	2015 - 2016
Dr.KKR's Gowtham Concept EM School	8.5 CGPA
